## Admission Requirements

Direct Enrolment

## What You'll Learn

Prepare yourself for in-demand risk roles and gain eligibility to write the Canadian Risk Management (CRM) designation exams. Through this program, you'll gain the framework and tools to lead risk initiatives in a multitude of industries like finance, healthcare, construction and more.

### 01 / Risk Management Principles and Practices

Understand hazard, operational, financial and strategic risk concepts. Learn to identify, analyze and treat risks. Explore processes, frameworks and techniques for monitoring and reporting on risks and utilizing risk management standards.

### 02 / Risk Assessment and Treatment

Explore methods for assessing risk and identifying appropriate treatments for risk minimization. Study theories of accident causation, root cause analysis and the application of various strategies for treating risks.

### 03 / Risk Financing

Examine the selection, implementation and monitoring of risk financing techniques. Explore subjects like transferring risk through insurance, types of insurance and capital market options.
